### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10:30 a.m. Tuesday, October 7, 2003, in Room 108, Landon State Office Building, 900 S.W. Jackson, Topeka, to consider the adoption of a proposed rule and regulation of the Division of Personnel Services, Department of Administration, on a permanent basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to the Secretary of Administration, 1000 S.W. Jackson, Suite 500, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Faith Loretto at (785) 296-6000. The north entrance to the Landon State Office Building is accessible. Handicapped parking is located at the south end of building, across the street from the north entrance to the building, and on Ninth Street just around the corner from the north entrance.

Summaries of the proposed regulation and its economic impact follow:

K.A.R. 1-6-21, candidate pools for regular positions, is being amended to reflect changes that are being made to the registration, recruitment, certification and selection processes for the state of Kansas. Beginning in fiscal year 2004, these processes have been decentralized so that each state agency is able to establish and implement certification, recruitment and selection processes and procedures that best fit that agency's capabilities and goals. Under the decentralized approach, agencies will not be required to use a standardized procedure in which applicants are ranked based on points assigned to selected skills and experience requirements.

As a result of these changes, amendments to K.A.R. 1-6-21 are necessary relating to the preference that veterans receive for classified positions with the state of Kansas. The proposed amendments to K.A.R. 1-6-21 would require that each individual who is identified and verified as eligible for the veterans' preference and who meets the minimum qualifications for any vacancy posted to the notice of vacancies will be offered an opportunity to interview for the position.

Additional proposed amendments to K.A.R. 1-6-21 involve a reorganization and rewording of subsections (a) and (b). The first clarification is to the language that al-

lows agencies to fill multiple vacancies from the same candidate pool. This provision is the current subject of paragraphs (a)(1) and (a)(2), but the language has been condensed and is now contained in one paragraph. The time frame during which this process can occur also has been extended to 60 days instead of the current 30 days, in order to allow for greater flexibility. In addition, the language regarding the application of selection criteria to candidates is being changed, but the change has no substantive impact. These amendments are not expected to have an economic impact on the Department of Administration, other state agencies, state employees, applicants for classified jobs or the general public.

The most significant economic impact on state agencies that could result from the proposed veterans' preference amendments would be in the form of the additional staff time that it may take to contact, make arrangements for, and interview applicants who identify themselves as veterans. Since there is no way to determine how many vacancies will be posted in any given year, there is no way to accurately estimate how often the veterans' preference will be exercised. The only pertinent, available information is data indicating that veterans have represented only 5.38 percent of the state's total applicant pool since 1996. Therefore, it is anticipated that the overall economic impact of this amendment should be minimal and that state agencies should be able to conduct interviews for veterans with existing resources. Implementation of the proposed amendments will not have any additional economic impact on the Department of Administration other than the potential costs identified above for all state agencies.

For those applicants for classified positions who are veterans and who choose to identify themselves as such, the veterans' preference may have a positive economic impact since veterans will be guaranteed an opportunity to interview for the position. By design, this preference could enhance the possibility that the veteran will be hired for the position. However, this preference for veterans is not expected to have an adverse economic impact on other applicants who are not veterans. Ensuring that qualified veterans have an opportunity to interview for classified positions should not, in and of itself, have an adverse impact on another qualified applicant for the position since agencies are allowed to determine how many applicants they will interview for the position. No economic impact on the general public is anticipated.

Copies of the proposed regulation and the associated economic impact statement may be obtained by contacting the Division of Personnel Services, Room 901-N, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612-1251, (785) 296-4278, http://da.state.ks.us/ps/documents/regs/proposed.htm.

### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted by the Governmental Ethics Commission at 2 p.m. Thursday, October 16, in the conference room of the commission's office at 109 W. 9th, Suite 504, Topeka, to consider the approval and adoption of proposed changes in existing rules and regulations.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the chairman of the Governmental Ethics Commission, 109 S.W. 9th, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally in regard to the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days before the hearing by contacting Donna Williams. Handicapped parking is located in the front of the building. The front entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A brief summary of the regulations is set forth below:

K.A.R. 19-2-2. Advisory opinions. This regulation is being amended to require each applicant submitting an advisory opinion request to submit such request so it is received in the commission's office 10 or more days before the commission can determine that a longer or shorter period of time is necessary. In addition, an applicant will be required to provide a telephone number with his or her advisory opinion request. The purpose of this amendment is to provide the commission's attorney sufficient time to analyze, research and draft an opinion and provide sufficient time for commissioners to review the draft prior to their meeting. Requiring the applicant to provide a telephone number will permit commission staff to contact and discuss the request with the applicant.

K.A.R. 19-20-4. Disclosure required on political advertising. This regulation is being proposed to clarify the requirements for using the paid for by attribution statement for political advertisements, brochures and political fact sheets that expressly advocate the election or defeat of a state or local candidate under the Campaign Finance Act. The guidelines for where the attribution statement must be placed and what names must appear are set forth in this regulation. The regulation also outlines what does and what does not constitute the statutory phrase brochure, flier or other political fact sheet. This regulation will codify prior advisory opinions issued by the commission.

K.A.R. 19-40-5. Contracts. The new language being added to this regulation sets forth the requirements that determine when a state officer or employee is substantially involved in the preparation of a contract or participates in the making of a contract that contains both competitively bid and negotiated elements. Currently, state statutes prohibit a state officer or employee from being substantially involved in the making of a contract with any person or business the employee or a member of the employee's immediate family is employed by or has a substantial interest in. The proposed language clarifies the situations that determine an individual's substantial involvement in these hybrid contracts.

K.A.R. 19-63-6. Lobbyist's records. This regulation sets forth what records a lobbyist must maintain. In 2000, K.S.A. 46-269 was amended to require lobbyists to provide more detailed information on their employment and expenditure reports concerning hospitality, gifts and entertainment provided to legislators and legislative staff. This regulation is being amended to clarify what additional records a lobbyist must keep to substantiate the reportable expenditures on his or her report.

K.A.R. 19-60-3. Definitions. This regulation defines some of the terms used in the lobbying sections of the governmental ethics laws, K.S.A. 46-215 et seq. Many of the definitions in this regulation have been amended to change the phrase "state officer or employee" to "officers or employees of the legislative branch, candidates for the legislature, or legislators-elect." This phrase change is necessary to bring the regulation in compliance with state statutes since a lobbyist can no longer provide hospitality, entertainment or gifts to executive branch officers and employees. The definition of "invitation" is being added to clarify what factors will be considered in determining whether an invitation is issued in good faith.

Economic Impact Summary: The above proposed regulations are not anticipated to have a significant economic impact on the commission, other agencies, or the general public. These regulations are not mandated by federal law

Copies of the complete text of the regulations and the economic impact statement may be obtained by contacting the commission at the address above or by calling (785) 296-4219.

#### **Notice to Consulting Engineers**

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the projects listed below. A response may be submitted by e-mail to Neil@ksdot.org, or seven signed copies of the response can be mailed to Neil Rusch, P.E., Assistant to the Director, Division of Engineering and Design, KDOT, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568.

Responses shall be limited to four pages. Responses must be received in Room 1084-West by 5 p.m. September 3 for the consulting engineering firm to be considered.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three and not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short-listed will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

#### 106 K-9461-01, Statewide

The scope of services is to provide an inventory and inspection of all sign structures (approx. 850) and high mast light tower (approx. 1,250) on the state highway system, ultrasonic testing of all anchor bolts, and develop a computer mapping program to locate each structure with links to the inventory data. The project estimated cost is \$500,000 and is scheduled to be completed in two years.

#### 50-40 K-9461-01, Harvey County

The scope of services is to provide corridor management study addressing potential road improvement projects and access control issues on US-50 from Old Main Street to Anderson Avenue in Newton. The project estimated at \$200,000 and is scheduled to be completed in one year.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications;
- 2. Experience of staff;
- 3. Location of firm with respect to proposed project;
- 4. Work load of firm; and
- 5. Firm's performance record.

#### **Request for Comments**

The Kansas Department of Transportation requests comments on the amendment of the Statewide Transportation Improvement Program (STIP) FY 03-05 by adding the following project:

**Project K-9461-01** — Inventory and inspect all sign structures (est. 854) and high mast towers (est. 1,249) and develop a computer program for mapping structure locations with link to structure data, statewide, on the state highway system.

The amendment of the STIP requires a 30-day public comment period. To receive more information on any of these projects or to make comments on the STIP amendment, contact the Kansas Department of Transportation, Office of Engineering Support, 7th Floor, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568, (785) 296-7916, fax (785) 296-0723.

This information is available in alternative accessible formats. To obtain an alternative format, contact the KDOT Bureau of Transportation Information, (785) 296-3585 (Voice/TTY).

The comment period regarding the STIP amendment will conclude September 8.

#### **Request for Comments**

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. El Paso Field Services has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

El Paso Field Services, Midland, Texas, owns and operates the Greenwood #1 natural gas compressor station located at Section 9, Township 33 South, Range 43 West, Morton County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka; and at the KDHE South Central District Office, 130 S. Market, Suite 6050, Wichita. To obtain or review the proposed permit and supporting documentation, contact Michael J. Parhomek, (785) 296-1580, at the KDHE central office; or Don Mies, (316) 337-6107, at the KDHE South Central District Office.

The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Michael J. Parhomek, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received by the close of business September 8.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business September 8 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA 45-day review period. If the EPA waives its 45-day review period, the 60-day public petition period will start directly after the 30-day public comment period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Gary Schlicht, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7097, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

# Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 1:30 p.m. Wednesday, October 8, in Room 530 of the Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of proposed new solid waste regulations K.A.R. 28-29-300, 28-29-302, 28-29-304, 28-29-308, 28-29-321 and 28-29-325. These proposed regulations will apply to construction and demolition (C&D) landfills.

The regulations are proposed to be adopted on a permanent basis. A summary of the proposed regulations, their environmental benefit and the estimated economic impact follows:

**K.A.R. 28-29-300. Applicability and definitions.** This regulation clarifies who the C&D regulations apply to and defines terms used in the C&D regulations. This proposed regulation does not provide any direct environmental benefit and will not impose any costs on the regulated community.

K.A.R. 28-29-302. Construction and demolition (C&D) landfill location restrictions. This regulation specifies location restrictions on new C&D landfills and expansions of existing C&D landfills with respect to the following: flood plains, threatened or endangered species, surface waters, schools and other occupied buildings, navigable streams and public drinking water supplies, groundwater, unstable areas and cultural resources.

The regulation consolidates location restriction requirements currently found in federal regulations, Kansas statutes and regulations, and Kansas Department of Health and Environment policies into one regulation specific to C&D landfills. It provides specific criteria to replace the current vague regulation concerning departmental approval of landfill locations. This regulation will make the criteria for siting C&D landfills easier for applicants to understand and facilitate the permit application process.

Since in practice all the requirements of this regulation are already in place, this regulation will not have any direct environmental benefit, but rather will facilitate the permit application process. This proposed regulation will not impose any additional costs on the regulated community.

K.A.R. 28-29-304. Construction and demolition (C&D) landfill design. This regulation specifies design requirements for C&D landfills, including facility access, signs, on-site roads, stormwater control, contact water control, phasing of operation and final cover. Many of these requirements are already in effect through existing regulations that apply to all solid waste facilities, but specific requirements are provided in areas where the existing regulation is vague.

These requirements are necessary to ensure that each C&D landfill is designed to minimize the potential for risks to human health and contamination of the environment. The estimated average economic impact to each regulated facility is a \$4,650 one-time cost and a \$100 annual cost.

K.A.R. 28-29-308. Construction and demolition (C&D) landfill operations. This regulation specifies operating requirements for C&D landfills, including dust and litter control, air quality, fire protection, water management, access control, waste screening, waste placement and compaction, waste disposal and recycling records, cover requirements, salvaging, scavenging, on-site communications, safety, record keeping and reporting.

Many of these requirements are already in effect through existing regulations that apply to all solid waste facilities, but specific requirements are provided in areas where the existing regulation is vague. There are new requirements for record keeping and post-closure inspections, which will facilitate departmental monitoring of C&D landfill operations.

Since C&D landfills are not designed to prevent the escape of hazardous waste constituents, the disposal of inappropriate waste in these landfills could lead to groundwater contamination. The requirements in this regulation are necessary to ensure that each C&D landfill is operated in a manner that minimizes the potential for risks to human health and contamination of the environment. The estimated average economic impact to each regulated facility is a \$100 one-time cost and a \$600 annual cost.

K.A.R. 28-29-321. Construction and demolition (C&D) landfill closure and post-closure care. This regulation specifies requirements for landfill closure and requirements for post-closure care of the landfill. Most of the requirements are already in effect through existing regulation.

The proposed regulation requires annual inspection of the landfill by the owner for at least five years after closure. This will help ensure the effectiveness and integrity of the landfill cover, thus preventing exposure of waste and excessive infiltration of water into the landfill. The estimated average economic impact to each regulated facility is \$200 annually for five years.

K.A.R. 28-29-325. Construction and demolition (C&D) landfill permits. This regulation specifies requirements and procedures for permit applications, permit modifi-

cations and permit renewal. Many of the requirements are already in effect through existing regulation or are requirements on the permit application form.

The proposed regulation requires that design and operating plans that do not meet the requirements of the proposed regulations must be revised and submitted to the department not more than 90 days after the effective date of the regulation. This helps ensure that landfills will be operated in a manner that minimizes risks to human health and the environment.

The proposed regulation also requires that certain documents be prepared and sealed by an engineer. This ensures compliance with statutes governing the technical professions and helps ensure that landfills are properly designed, thus minimizing risks to human health and the environment. The estimated average economic impact to each regulated facility is a \$175 one-time cost.

KDHE will have the responsibility for implementing and enforcing the proposed amendments to the regulations. The proposed amendments will not result in an increase in cost to the agency or an increase in paperwork.

Failure to adopt these regulations will make the criteria for siting, designing, operating, and permitting C&D landfills more difficult for applicants, owners, operators, and consultants to understand, resulting in wasted time and money. Failure to adopt these regulations could also result in contamination of groundwater and/or surface water and the consequent risks to human health.

The time period between publication of this notice and the scheduled hearing serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to George McCaskill, Department of Health and Environment, Bureau of Waste Management, 1000 S.W. Jackson, Suite 320, Topeka, 66612-1366, (785) 296-1606. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and regulatory impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting George McCaskill at (785) 296-1606, fax (785) 296-8909.

Complete copies of the proposed regulations and the corresponding regulatory impact statement may be obtained on the Bureau of Waste Management's Web site: www.kdhe.state.ks.us/waste, or by contacting the Bureau of Waste Management.
